Officer's Forum - Secretary

Hello DAPL,

Thank you for another exciting and successful year. We have a lot to be proud of and thankful for as we approach the holiday season. Thank you for the continued support and positive outlook as we close out 2024. Industry and the DAPL members have worked hard this year to give back to the community and foster a sense of belonging in our communities.

This year the DAPL has worked to give back by supporting food drives, partnering with the Colorado Veterans project, volunteering to benefit Family Homestead, contributing to local schools, and sponsoring events such as the Colfax Marathon and other public events that foster local growth and improvement. So we'd like to give a special thanks to everyone for their continued support and positive community relations efforts and wish everyone a happy holiday season.

Please contact Laurie Wizeman or Tabatha Reed on the DAPL board if you'd like to raise awareness for any specific cause and we can mention the organization in future communications.

Tammy Zamarripa

DAPL Secretary

Nomination Form for Annual Awards 2024

The DAPL Awards Committee is soliciting recommendations from the general Membership for the categories described below. In the event you wish to nominate someone for these awards please complete and return to the DAPL or email your submission to DAPL@DAPLDenver.org by **November 8, 2024**. Vote and let your input count!

[Click here to complete online Nomination Form](#)

Nominator name and email: _____

Landman of the Year

Description: To be presented to a DAPL Member who most exemplifies the land profession. Contributions to the industry, the DAPL, the community, the land profession and demonstrates exemplary leadership.

Nominee: _____

Qualifications and why nominated: _____

Hall of Fame – Lifetime Achievement Award

Description: A lifetime achievement award to be presented to a current/past DAPL Member who has exemplified the land profession and demonstrated leadership by contributing to the industry, the DAPL, the community and the land profession..

Nominee: _____

Qualifications and why nominated: _____

Special Awards – Multiple Awards in this category may be awarded based on merit

To be presented to the member(s) or group(s) who/which has made an extraordinary contribution to DAPL/AAPL, the land profession, the industry or the community. May include but is not limited to:

Education

Description: May be presented to a member who has achieved a level of unusual distinction in DAPL's continuing education program as demonstrated by his/her contribution of time and service to the betterment of land professionals.

Nominee: _____

Qualifications and why nominated: _____

Committee Member

Description: May be presented to a Committee member who has greatly exceeded expectations.

Nominee: _____

Qualifications and why nominated: _____

Community Service

Description: May be presented to a member who has contributed greatly toward civic improvement in his/her local community.

Nominee: _____

Qualifications and why nominated: _____

Mail nomination forms to the DAPL office 730 17th St., Suite B1 Denver, CO 80202 or email dapl@dapldenver.org

Field Landman Question

A DAPL Member has asked: What does Colorado's recent pore space legislation say?

In May 2024, Governor Polis signed House Bill 24-1346 (the "Act") into law, which amended several statutes related to Colorado's Energy and Carbon Management Commission ("Commission"). Among other things, the Act introduced the state's first legislative authority governing the ownership of pore space and the regulation of subsurface carbon dioxide storage operations.

The Act Adopts Majority Rule in Allocating Pore Space to Surface Owner

Colorado is now aligned with the majority 'American rule' in allocating pore space rights to the owner of the overlying surface estate. The Act amends C.R.S. § 34-60-103 to define "pore space" as any "cavity or void, whether natural or artificially created, in a subsurface stratum." The owner of the "sequestration estate," or the interest(s) in any "geologic storage resource," is the person who owns the pore space "necessary for geologic storage." In turn, "geologic storage" is defined as "the injection and underground sequestration of inject[ed] carbon dioxide in a geologic storage resource," pursuant to a valid Class VI permit issued under the U.S. Safe Drinking Water Act, 42 U.S.C. 300f, et seq.

The Act creates a statutory presumption "that ownership of the sequestration estate in the state is vested in the owner of the overlying surface estate," absent a severance pursuant to C.R.S. § 34-60-140(2)(b), which provides that "ownership of the sequestration estate may be: (i) severed from the overlying surface estate; and (ii) conveyed or reserved in the same manner as ownership of the mineral estate." In order to sever the sequestration estate from the surface, the parties must state such intent clearly in applicable muniments of title. Any conveyance of the surface of a tract of land will be deemed to include the grantor's interest in the underlying sequestration estate, unless "the conveyance instrument expressly reserves the sequestration estate, including by broad reservation of the pore space."

The Act also clarifies that ownership of the actual injected CO₂, and the related facilities and equipment used for storage operations, is held by the geologic storage operator that injects it into a geologic storage resource approved by the Commission, or any other party who later acquires such rights from the original injecting owner.

Notably, these title-related provisions in the new C.R.S. § 34-60-140 are not intended to affect interests in pore space beyond the sequestration estate. The Act does not limit or impact the ability of a pore space owner to "(i) broadly convey or reserve all of the owner's right, title, and interest in and to the pore space, including the owner's interest in the sequestration estate; or (ii) convey or reserve any right, title, or interest in and to the estates in pore space other than the sequestration estate..." Further, these new statutes are prospective only and do not impact private or common law interpretations of any subsurface storage rights acquired or reserved before May 25, 2024.

The Act Expands Commission Authority to Regulate and Unitize Carbon Storage

The Act broadens the purview of the Commission to include the regulation of "energy and carbon management operations," including all "activities performed for the purpose of engaging in geologic storage in the state," such as the construction, drilling and operation of injection wells, flow lines and related facilities used in the subsurface storage of carbon dioxide. The Act authorizes the Commission to issue and enforce permits, collect fees, and establish other rules necessary to administer its statutory directions.

The Act revises C.R.S. § 34-60-141 to empower the Commission to issue unit orders that establish terms and conditions for the unitized operation of geologic storage facilities. The Commission may, upon application and hearing, issue a "geologic storage unit order" if such unitized development "is reasonably necessary to effectuate a geologic storage project." The size of the geologic storage unit area "must be based on site characterization and modeling conducted pursuant to the" federal Safe Drinking Water Act and any Commission rules adopted pursuant thereto. Each geologic storage unit order must be just and reasonable and establish a plan for unit operations. Specifically, the unit plan must include: (1) a description of the geologic storage area and proposed storage operations to be conducted; (2) an explanation of how storage rights are allocated in the unit area and how those several owners will be compensated for the proposed operations; and (3) a description of the proposed management, operation, term, and cost liability for the proposed storage unit.

Like unitized oil and gas development, all operations conducted pursuant to an effective geologic storage unit order on any portion of the unit area will constitute operations on each separately owned tract within the unit area. A storage unit order shall not be construed to transfer or convey any owner's title to any part of the sequestration estate within the unit area.

Field Landman Question cont'd.

For a geologic storage unit order to take effect, the unit plan must be approved in writing by those persons that, pursuant to the geologic storage unit order, collectively own at least 75% of the geologic storage resources included in the geologic storage unit area. An owner of a sequestration estate that was not included in a storage unit order may petition the Commission for inclusion.

In several aspects, the Act also broadens the scope of prior statutes such that Commission authority and procedure will extend to geologic storage operations much like they already applied to oil and gas development. For example, administrative penalties for violations set forth in C.R.S. § 34-60-121 were amended to cover all “energy and carbon management” operators and operations. Similarly, the existing statutory promotion of local government jurisdiction over oil and gas operations also applies to geologic storage. On the other hand, the Act, or any geologic storage unit order issued thereunder, expressly does not confer eminent domain authority on any approved unit operator.

Finally, the Act provides an avenue to local governments that are seeking technical assistance regarding geologic storage siting and land use decisions to request that the Commission appoint a technical review board to assist the local government’s analysis of a given operation or decision. The Act also directs the Commission to establish accounting procedures for CO₂ storage operations and to work together with the state’s Department of Public Health and Environment “to facilitate the monitoring, verification and accounting of carbon dioxide in geologic storage operations.”

Jim Tartaglia
Member, Steptoe & Johnson PLLC

Do you have a land issue you would like discussed? Do you need supporting documentation to win a bet with a colleague? Is there a question you are too embarrassed to ask your boss? If so, the DAPL would like to hear from you! Please submit your question to joe.martin@highwestresources.com. Each month, we will publish a question chosen from those submitted, along with a Steptoe & Johnson PLLC attorney’s discussion of the issue. The foregoing article discusses general legal principles and laws applied to a generic fact situation, is not intended to constitute legal advice or create any attorney-client relationship, and no representation or warranty of accuracy or applicability regarding the same is made by the author or Steptoe & Johnson PLLC. The content of and views expressed in the foregoing article are those of the author, and are not the views of the DAPL.

Laurie Wizeman - DAPL President

Laurie Wizeman is a driven and highly capable professional with extensive experience in the oil and gas industry. Capable of drafting specialized lease documents, spearheading negotiations, and executing strategic plans that advance business development activities. Proven success in assessing the legal and regulatory risks and developing contracts. Highly dependable in tracking payments, analyzing risks, and assessing/improving performance. Ability to work effectively with cross-functional teams and communicate with people at all levels.

Nancy McCaskell - AAPL President

Nancy McCaskell, CPL, is president of Masonboro Energy LLC, a consulting firm focused on energy and landwork. During more than three decades of managing and leading acquisitions, divestitures and negotiations, she has held leadership positions with Pitts Oil Company, Encana Oil & Gas (USA) Inc., J-W Operating Co. and Coda Energy Inc. Her experience stretches across the Barnett, Haynesville, Tuscaloosa Marine Shale, Eagle Ford, Permian, San Juan, Fayetteville and Anadarko basins. In addition, McCaskell has acted as a liaison with state oil and gas associations and regulatory bodies. She counts working with the Louisiana Office of Conservation to create new policies allowing for cross unit wells as a career highlight. Active in leadership roles at the local and national level, McCaskell sits on the Dallas Association of Petroleum Landmen board of directors and serves as AAPL's president — only the second female in the association's 70-year history to hold the role. Among her honors, she was named DAPL's 2023 Landman of Year and received AAPL's 2020 Blankenship Family Horizon Award, which recognizes an exceptional female land professional and role model. Additionally, McCaskell is an advisory member to the University of Oklahoma College of Law MLS and LLM programs in energy and natural resources, and she has served on several community nonprofit boards. She and her spouse, the Rev. Mary Stewart Hall, live in Dallas and enjoy traveling, art and music.

DENVER ASSOCIATION OF PROFESSIONAL LANDMEN

AAPL

Powering The Profession

51st Annual Denver Land Institute

Thursday, November 14th 8am—5pm

Scott St. John - V.P. of Engineering and Regulatory

Compliance, Reagan Smith, Inc.,

Scott St. John has a background in engineering and years of experience in the energy industry. He has been an attorney with Reagan Smith, Inc. for the past 18 years, primarily focused on oil and gas, Endangered Species Act and the National Environmental Policy Act (NEPA).

He is well versed in county, state and Federal regulations. He specializes in highly regulated drilling operations and working as a liaison between government entities and operators. Scott deals directly with the Bureau of Land Management and Bureau of Indian Affairs on a daily basis to ensure operators are compliant with regulations.

Scott works with clients on Environmental, Social and Governance evaluations, audits and compliance. He holds a certificate in ESG Leadership from University of Oklahoma. He has managed large development projects on federal and Tribal lands.

Scott is also specialized in federal environmental law and regulations. He leads the environmental, wildlife and permitting departments in providing regulatory permits to a variety of industries.

Scott is also a senior partner at St. John, Griffin & Krieg, P.L.L.C. which focuses on Native American and natural resource law.

Joseph Schremmer - Associate Professor, University of Oklahoma College of Law

Joseph A. Schremmer is an Associate Professor of Law at the University of Oklahoma College of Law and Director of the Oil, Gas, Natural Resources, and Energy Center (ONE C). He teaches courses in oil and gas, energy, and natural resources law, as well as first-year property. He is the sole revision and update author of *Kuntz on Oil and Gas Law*, a co-author of *Oil and Gas Law: Cases and Materials* (11th ed. Foundation Press), and has published extensively in the law journals on topics such as correlative rights, waste, property in pore space, subsurface trespass, and split estates. Before joining OU Law, Schremmer was the Judge Leon Karelitz Oil & Gas Law Professor at the University of New Mexico School of Law. Before that, he practiced law in Wichita, Kansas for six years and was a partner with Depew Gillen Rathbun & McInteer, LC. His practice covered most aspects of upstream oil and gas production, including title examination, transactional work, practice before the Kansas Corporation Commission, and civil litigation. He was the president of the Oil, Gas, and Minerals Section of the Kansas Bar Association and was recognized multiple times as a Rising Star by Super Lawyers.

51st Annual Denver Land Institute

Thursday, November 14th 8am—5pm

Jerris Johnson - AI Strategist and Consultant

Jerris Johnson, CPL, is the AI Strategist and Consultant for FutureProof Tech & Consulting and the Land and Energy Technology SME for Rowland.ai. Jerris frequently presents for national and regional events, sharing his knowledge and insights on various topics related to land practices, energy trends, and the utilization of artificial intelligence and technology hacks. With over 20 years of experience in the energy industry, Jerris uses his land knowledge and implements tech and AI practices into workflows. Prior experiences have included landman and land manager roles with multiple oil and gas exploration and production companies. He has managed land teams and ensured quality, efficiency, and exceeding expectations in his projects. He is highly involved in volunteerism and leadership for the American Association of Professional Landmen.

51st Annual Denver Land Institute

Thursday, November 14th 8am—5pm

Chris Wright - CEO, Liberty Energy

Chris Wright is the founder and Chief Executive Officer of Liberty Energy. He is a self-described tech nerd turned entrepreneur and a dedicated humanitarian on a mission to better human lives. This passion has inspired a career in energy working not only in oil and gas, but nuclear, solar, and geothermal. Chris completed an undergraduate degree in Mechanical Engineering at MIT and graduate work in Electrical Engineering at UC Berkeley and MIT. In addition to his role at Liberty, he sits on the Board of Directors of Oklo Inc., a next-generation small modular nuclear reactor company, and EMX Royalty Corp., a global mining royalties company. He also serves on the board of numerous nonprofit organizations, including ACE Scholarships, and as a founding board member of the Bettering Human Lives Foundation.

Doug Sandridge - Senior VP, Fulcrum Energy Capital Funds

Doug Sandridge has over 40 years experience in petroleum land management, regulatory compliance and oil and gas marketing. Doug is Senior Vice President of Fulcrum Energy Capital Funds where he principally manages land, regulatory, environmental and community engagement activities relating to Gondola Resources, LLC's oil and gas assets located in the North Park Basin, Jackson County, Colorado. Prior to joining Fulcrum, Doug was an independent consultant for SandRidge Exploration & Production Company, LLC, focused on their North Park Colorado properties. Doug was previously Vice President of Land and a partner in EE3 LLC. Prior to EE3, Doug worked for Forest Oil Corporation, Ellora Energy, LLC, Burk Royalty Co., Ltd., Cobra Oil & Gas Corporation and Petro-Lewis Corporation.

Doug graduated from the University of Oklahoma with a BBA in Petroleum Land Management in May 1982. In 2011, Doug earned his Master of Science Degree in Global Energy Management from the University of Colorado – Denver. Doug is the founder of EnergyPolicyUS, an organization which promotes non-partisan energy education. Doug lectures extensively at various universities about energy and is an adjunct professor at the University of Oklahoma.

51st Annual Denver Land Institute

Thursday, November 14th 8am—5pm

Andrew Glenn - Shareholder, Beatty & Wozniak

Andrew specializes in commercial litigation involving breaches of contracts, business torts, construction, product liability, and real-property disputes within the Energy and Natural Resource industries.

As a dedicated advocate for his clients in the oil and gas and natural resource sectors, Andrew skillfully tackles complex cases in both state and federal courts. He crafts tailored strategies for his clients throughout the litigation process, from discovery and depositions to the trial presentation before the judge or jury. Andrew's expertise extends to appellate advocacy, where he has a track record of successful appeals in various appellate courts, including the Tenth Circuit Court of Appeals.

Beyond his litigation practice, Andrew provides valuable counsel on state and federal environmental and regulatory matters. He has effectively represented clients in enforcement proceedings before state agencies and resolved disputes before the Interior Board of Land Appeals. Andrew also guides clients through a variety of regulatory compliance issues, offering comprehensive support on matters involving:

- National Environmental Policy Act (NEPA)
- Federal Land Policy and Management Act (FLPMA)
- Resource Conservation and Recovery Act (RCRA)
- Endangered Species Act (ESA)
- Clean Air Act (CAA)
- Mineral Leasing Act (MLA)

Andrew is a native Coloradoan who began his career in the oil and gas industry as a broker for his father's land services company. He has also worked as a landman in North Dakota, Colorado, Utah, and Montana.

Joan Vestrand - Dean of Students, Thomas M. Cooley Law School

Joan Vestrand is Dean of Students at Michigan's Cooley Law School where she also teaches Personal and Professional Responsibility, Legal Ethics in the Digital Space, and Getting to Excellence – a course which focuses on the connection between ethics, attitude, and success. With more than 20 years at the institution, Dean Vestrand also served for many years as dean of two of the law school's campuses and as a member of the faculty, helped revamp the law school's legal ethics curriculum, including the development and implementation of numerous professionalism initiatives. In 2006, the law school was awarded the American Bar Association's E. Smythe Gambrell Professionalism Award for these programs. Prior to joining the law school, Dean Vestrand served for more than a decade as a state ethics prosecutor investigating and prosecuting allegations of professional misconduct against Michigan lawyers and judges followed by several years in private practice, where she engaged in legal ethics defense. Currently, Dean Vestrand presides over lawyer disciplinary matters on behalf of the state and serves as an expert witness in the field of legal ethics. A recipient of the State Bar of Michigan's Champion of Justice Award for Outstanding Contributions to the Legal Profession and the Community, Vestrand has also been recognized as a Leader in the Law with multiple other acknowledgements for her leadership and work in the field. A frequent lecturer on ethics and leadership, and the importance of ethical behavior to success, Vestrand speaks across the country to an array of audiences and organizations, including our nation's top military academies, with many return appearances.

51st ANNUAL DENVER LAND INSTITUTE SPONSORSHIPS

Reach landmen, attorneys, geologists, geophysicists and engineers by sponsoring the Denver Land Institute! Sponsorships include perks such as company recognition in email marketing, company logo on presentation materials and on-site publications as well as opportunities to distribute promotional materials to attendees.

PREMIER DENVER LAND INSTITUTE SPONSOR

PRICE: \$5,000

Sponsorship includes:

- Premier company recognition through email marketing
- On-site signage for the duration of the event
- Company recognition during on-site PowerPoint slideshow
- Opportunity to distribute company promotional materials throughout event
- Two complimentary registrations
- Social media shoutout and sponsor listing included on AAPL Energy Institutes Mobile App

DENVER LAND INSTITUTE REGISTRATION SPONSOR

PRICE: \$2,500

Sponsorship includes:

- Logo recognition on confirmation emails
- On-site signage at registration
- Company recognition during on-site PowerPoint slideshow
- Social media shoutout and sponsor listing included on AAPL Energy Institutes Mobile App

DENVER LAND INSTITUTE LUNCHEON SPONSOR

PRICE: \$1,000

Sponsorship includes:

- Company recognition through email marketing
- On-site signage during luncheon
- Company recognition during on-site PowerPoint slideshow
- Opportunity to distribute company promotional materials throughout luncheon
- Social media shoutout and sponsor listing included on AAPL Energy Institutes Mobile App

DENVER LAND INSTITUTE BREAKFAST SPONSOR

PRICE: \$1,000

Sponsorship includes:

- Company recognition through email marketing
- On-site signage at the event
- Company recognition during on-site PowerPoint slideshow
- Opportunity to distribute company promotional materials
- Social media shoutout and sponsor listing included on AAPL Energy Institutes Mobile App

DENVER LAND INSTITUTE EDUCATION SPONSOR

PRICE: \$500

Sponsorship includes:

- Company recognition on signage at event
- Social media shoutout and sponsor listing included on AAPL Energy Institutes Mobile App

DENVER LAND INSTITUTE SUPPORTER

PRICE: \$250

Sponsorship includes:

- Company recognition on signage at event

Advanced Landman's Institute

November 7-8, 2024

Hyatt Regency Houston Galleria | Houston, Texas

For the second time and the first time since 2019, the American Association of Professional Landmen (AAPL) has partnered with The Foundation for Natural Resources and Energy Law (formerly the Rocky Mountain Mineral Law Foundation) to together offer a course focused on advanced and more in-depth presentations on issues critical to the work of landmen for the modern development of energy and minerals. This course recognizes that the most successful landmen master more than land title and basic land contracts—they must have a good working knowledge of complex legal and contractual provisions and regulatory issues affecting development and keep abreast of market trends and current deal structures.

This course—with presentations ranging from oil and gas acquisition and divestiture transactions to issues when acquiring aging assets, joint operations, the relationship between operators and nonoperators, adverse possession, drafting and negotiating instruments to acquire pore space for CCUS, conflicts between mineral and renewable development, venting and flaring challenges, ethics, and more—will benefit both landmen and energy and mineral attorneys, and provide up to 10 AAPL and CLE credits (for 60-minute states), including 1 hour of ethics credit. Most presentations will be accompanied by in-depth papers to serve as a continuing reference, and all registrants will receive a complimentary copy of the Landman's Legal Handbook.

FREE Landman's Legal Handbook with each registration!

Market Update

Trisha Curtis

Trisha Curtis is the President and CEO of PetroNerds, LLC. She founded the company and began running it out of Denver, Colorado in 2016. She was formerly the Director of Research, Upstream and Midstream, at the Energy Policy Research Foundation, Inc. (EPRINC) in Washington, DC. Since 2010, she has led extensive research efforts and major consulting projects and authored several reports on the North American upstream and midstream markets for government agencies, global think tanks, and corporations. She was also the Manager for Strategy and Analytics at Anschutz Exploration in Denver, Colorado from 2019 to 2020. At PetroNerds, Ms. Curtis leads research, advising and consulting services. She is a macroeconomist with an expertise in US shale markets, geopolitics, and China. She is globally recognized for her knowledge of US shale and has been asked to speak and present at several academic, industry, and investor forums including OPEC in Vienna, SPE in Bahrain, IEF in Saudi Arabia, Stanford University, Chatham House, Oxford University, Denver University, and Colorado School of Mines. She is also the host of the PetroNerds Podcast. Trisha provides clients with in-depth analysis of the US and world economy, geopolitics, global oil and gas markets, and the US shale industry. She synthesizes this into relevant, actionable, and forecastable information integral to her clients and their respective businesses and needs.

She spearheaded EPRINC's projects with Department of Energy for the Quadrennial Energy Review, evaluating future North American crude oil production volumes and midstream transportation options through 2030. She worked extensively with US and Canadian railroads in their efforts to begin moving Bakken crude, by rail, to the East Coast. Trisha also authored multiple reports on US shale and completions in US shale with the Oxford Institute for Energy Studies. Her work for Department of Defense has focused extensively on China, energy, and US Shale. Ms. Curtis is the Economist for the American Energy Institute, an Energy Fellow with the Common Sense Institute in Colorado, a Board Member at the Denver Earth Resources Library, and a Research Associate at the Oxford Institute for Energy Studies (OIES), a recognized independent center of Oxford University. She is also a Fellow at Colorado School of Mines' Payne Institute. Ms. Curtis completed her undergraduate work at Regis University in Denver, Colorado where she double majored in Economics and Politics, minored in Criminology, and graduated Summa Cum Laude. She has a Master of Science (MSc) degree from the London School of Economics in International Political Economy and wrote her MSc Dissertation on Chinese National Oil Companies. As an undergraduate, she also worked as a staff assistant in UK Parliament for John Grogan, Selby Constituency. Raised in northwest Colorado and southwest Wyoming, she grew up around pump jacks and has worked on oil and gas sites in Colorado and Wyoming with her father.

President's Report - Reported by Laurie Wizeman:**Community Service and Charitable Event Outreach**

Feedback from surveys shows people would like to see us get involved with Veterans and the Denver rescue mission. At the DAPL Clay Shoot, we raised \$2,260 for Colorado veterans. There's going to be a volunteer opportunity coming up November 9th for 5K, 10K, and parade. More details to follow!

The Annual Awards & Holiday Social is December 12, 2024, at the University Club. We are discussing a donation drive for tangible goods; updates to come on that volunteer opportunity!

The Regulatory Update Breakfast is October 3, 2024, at Panzano is sold out.

-We potentially have 5-10 spots available, if you are not registered for the event, please reach out to Tabatha or sign up on the website to get on the wait list.

The November 13, 2024, virtual board meeting has been changed to November 6, 2024.

Education Committee - Reported by Crosby Garrison:**Upcoming Events:**

October 3, 2024: October Basin Regulatory Update Breakfast at Panzano

Speakers: Jamie Jost and Kelsey Wasylenky

November 14, 2024: 51st Annual Denver Land Institute at the Ritz-Carlton

- All speakers are lined up and confirmed.

- Institute Topics: BLM / BIA State Lands, Subsurface Property Right Litigation, AI Technology / Land, Energy, Climate, Poverty, and Prosperity, Osage Winds: Shortcuts lead to Dead Ends, Post Productions Costs, Ethics

- Continuing Education Units - Pending

Continued on next page

February 19, 2025: Utah 101 Luncheon at The University Club
Speaker: Brent Chicken and Scott McDaniel

March 6, 2025: Spring Land Institute
Topics: Renewables and Alternative energy

Clay Shoot - Reported by Edward Green:

The 40th Annual Clay Shoot was a huge success this year!
- 160 shooters registered

Pres. Laurie Wizeman adjourned the meeting at 12:31 PM MST 09.11.2024

Community Service and Charitable Outreach

AAPL President Letter

To Directors & Committee Chairs/Assistant Chairs

Hello from your Executive Committee. Here we are in October, and we would like to update you on what's been going on since our last letter and the end of Q3, Sept. 30.

In June, during the Annual Meeting, we pledged to you to be evangelists for our profession and to focus on you — our land leaders — services for our members and the sustainability of our organization. We hope we're doing that.

Ad Hoc Committees

Association Management Software Committee

The AMS ad hoc committee focuses on our association management software (AMS). You know the AMS as Personify. You see it when you log in to our website or sign up for education and meetings. Our current contract with Personify expires in the fall of 2025. So, we, your Executive Committee, staff and the ad hoc committee chair, Jerris Johnson, are completing the rigorous discovery process to find a system that best suits us. For example, what do we need? How can we make it more user-friendly and staff-friendly, more accessible to modify and more efficient while producing robust information? How will it help you? In our September Board Meeting in Traverse City, Michigan, the board of directors authorized spending for a new system once the ad hoc committee, staff and ExCom have made the final decision. More information is coming soon.

Media Preparedness Committee

The ad hoc committee created to develop a preparation and response plan for the launch of the new Taylor Sheridan Landman TV series on Paramount has completed its work. We thank Jason Maloy and the committee their most excellent and speedy work. You'll recall that this committee's tasks included investigating how search engines will work when the series comes out, and we have people from all over Googling "Landman." We want to be at the forefront of telling our story and be a champion for the landman and the land profession. What do we do when someone is interested in learning more? We'll have podcasts following the weekly Landman episodes to discuss what we saw. A media toolkit has been created and will be posted on our website for members like you to help you answer questions. We aim for it to be dynamic — not static — so look for more to come on that. If you have questions about this, contact Jason Maloy, chair. In addition, we envision producing other types of toolkits that might be helpful to you. Last but not least, there will be a launch party at the AAPL Headquarters in Fort Worth on Nov. 17 at 6:30 p.m. before the series' debut. Space is limited, so watch for a registration link soon.

Artificial Intelligence Committee

And finally, the AI ad hoc committee continues to investigate how AI can help you in your work, due diligence and more, and how we can lean into the future with more expedient tools. Ad hoc Chair Cranford Newell, committee members and staff are working to report what's available and how we can better serve you. Look for a survey in the October Landline seeking information from you. Be sure to complete it soon. We are looking for information from YOU.

New Career Center Launch

Additionally, we continue to negotiate with a third-party vendor whose career and hiring app might make it easier to find a job when you're looking for one. We are not at liberty to give details yet — but watch for more information. Our current career center doesn't suit us anymore. We aim to improve that for you.

ExCom Meetings

In July, we initiated Executive Committee meetings every other Tuesday to more efficiently and effectively do the board's work between the board of directors meetings. We are working with a few committees on some policy changes we may present to you at the December board meeting. As soon as we have any of them ready, we'll send them to the directors and chairs for early review.

Chair & Assistant Chair Lightning Round

We held our first Chair and Assistant Chair Lightning Round at the board meeting in Traverse City, Michigan, and we'll meet again on Oct. 29 via Zoom. Committee chairs initiated some great ideas surrounding energy expansion affecting our members and committees. Engagement and enthusiasm were the greatest of takeaways. Stay tuned; there's more to come, including ideas we all think will benefit members and the association. Exciting times are ahead.

Landman Now and Nape Now Podcasts

We are excited to launch Landman Now, podcasting the profession and Nape Now, where deals happen podcasts.

AAPL President Letter cont'd.

Content is being developed to shoot monthly episodes highlighting AAPL and NAPE activities and issues affecting the land profession and the energy industry.

Women in Energy Institute

What else? Huge shout out to the staff for their extraordinary effort and to everyone who attended the Women in Energy Institute and pickleball and golf tournaments in Houston last week. Numerous speakers and panelists highlighted the event, including Brendan McCracken, Ovintiv CEO and president. Networking occurred during the institute and the pickleball tournament on Tuesday evening and golf on Wednesday.

Governmental Affairs

Governmental Affairs continues its extraordinary work of reporting regulations and legal changes to all of us, keeping us apprised of matters important to our profession. We'll keep you informed as issues take shape.

NAPE

NAPE Charities hosted successful golf and pickleball tournaments this month in Houston, with proceeds benefiting America's veterans. Additionally, NAPE has moved all registration and housing in-house for NAPE Summit 2025 to serve our customers and clients better and save expenses. It will also allow NAPE staff to monitor registration trends and provide feedback for improvement. Remember to register soon. Be there or be square. It is going to be a fantastic event.

Events

Speaking of extraordinary events, AAPL hosted several events this month, starting with a jam-packed Gulf Coast Land Institute in Lafayette, Louisiana, immediately followed by the Women in Energy Institute in Houston.

Looking ahead to next month, AAPL will once again co-host the **Advanced Landman's Institute** with the Foundation for Natural Resources and Energy Law on Nov. 7-8 in Houston. For the second time and first time since 2019, this institute offers more in-depth presentations on issues critical to the work of landmen for the modern development of energy and minerals.

Also taking place next month, AAPL will host the **Denver Land Institute** on Nov. 14 and the **Joint Land Institute** with the Energy and Mineral Law Foundation on Nov. 15 in Morgantown, West Virginia. A **Field Landman Seminar** will take place on Nov. 14 in Edmond, Oklahoma, and AAPL will close out the year of in-person events with a new **Oklahoma Energy Institute** on Dec. 2 in Oklahoma City and the **December Quarterly Board of Directors Meeting** on Dec. 6-8 in San Diego, California.

Take a peek at the incredible events sponsored by and built by AAPL and NAPE by visiting AAPL's complete education and events calendar at <https://learning.landman.org/calendar>. Stellar education events are upcoming!

Professional Development Assistance

So, there's so much more going on — budgeting, philanthropic plans as joint efforts between AAPL, local associations, our accredited programs in universities and NAPE. We want to provide information and education to our local associations — perhaps things a local association can't afford — but the more extensive umbrella of AAPL can help. Remember also that we have the professional development assistance program. Please take advantage of this generous offering from AAPL and apply for it. You can apply two times a year for \$300 in education assistance for education courses and NAPE registration. Our Landman Scholarship Trust awards scholarships to students from our accredited programs. On average, LST distributes more than a quarter of a million dollars annually to students. The fall term is in full swing. Feel free to make a tax-deductible donation. Remember, our Educational Foundation also offers financial assistance to members affected by natural disasters — hurricanes, floods and fires — and provides grants to committees, local associations and our accredited programs. Donations matter! Remember and tell your colleagues. These are benefits of membership for you, our valued members.

Thinking of Members

From the East Coast into the mountains of North Carolina, northern Wyoming and Roswell, New Mexico, our thoughts and prayers go out to members and loved ones affected by disastrous and deadly flooding, hurricanes and fires. To those suffering personal losses, you are in our prayers. "Be kind, for everyone you meet is fighting a great battle."

Call for 2025-26 AAPL Officer Nominations

The AAPL Nominating Subcommittee is currently seeking nominations for the 2025-26 slate of Executive Committee officers.

AAPL President Letter cont'd.

Nominations are accepted annually for the following positions:

1. First Vice President*
2. Second Vice President*
3. Third Vice President*
4. Secretary
5. Treasurer

Each position requires a commitment of service of at least one year.

*First vice president nominees must commit to three years of service (first vice president, president, and immediate past president). Second and third vice president nominees will have a second year of committee leadership service in the Landman Scholarship Trust or the Educational Foundation.

Every year, the Nominating Subcommittee seeks input and nominations for AAPL's Executive Committee volunteer leadership positions. The future direction of AAPL depends on our ability to nominate strong, experienced leaders who can guide our association and our profession through the ever-changing and evolving land profession. It is more critical now than ever that we nominate strong, competent individuals to lead our association.

What does it take to lead AAPL?

Qualifications of candidates

- Must be an Active AAPL member and a CPL or P.Land (Canadian Equivalent of CPL).
- Cannot be a current member of the Nominating Subcommittee.
- Landmen who, because of their accomplishments, are well-known, respected, and recognized by the industry.
- Landmen who can perform the required speaking engagements and are willing and able to devote time, effort, and expense to the job.
- Previously served as an AAPL committee chair or as an AAPL director.
- Personal attributes — intelligent, articulate, and the ability to work with others.
- Maturity and experience to provide wise leadership and vital interest in strengthening AAPL and increasing its contribution to landmen and the industry.

How do I nominate someone?

Please submit all nominations in writing to Jodi Gallegos, AAPL Director of Operations (jgallegos@landman.org), or submit online via the AAPL website under "Get Involved" or at landman.org/get-involved/nominate/officer-nominations. Written nominations should include a letter of recommendation by an AAPL Active Member, a list of current and previous AAPL and/or affiliate association leadership roles, and a copy of the nominee's resume or CV. **Nominations must be received by Jan. 10, 2025.** Please contact Jodi Gallegos with any questions.

Cheers to a Great Q4!

So, what now? As we head into the fourth quarter of the calendar year, your Executive Committee looks forward to being evangelists for our profession, and we need you with us. We will see you at local associations, our Institutes, the FNREL Advanced Landman Seminar, the December quarterly board of directors meeting and on university campuses. We will call upon you as members to help move AAPL and all landmen forward. In the meantime, go in peace. Reach out to us with questions or concerns. Here's to our members; here's to YOU!

Thank you to the 2024-25 Executive Committee for its continued focus on sustainability, members and member services.

Regards,

Nancy McCaskell, CPL AAPL President
